

Milestone 1:

Hi Chris, so in milestone 1 I have implemented basic admin and user operations which are the base of the coming milestones. An elaborate description of features is written down here. Feel free to provide feedback and add comments to it.

I have tried to record a loom video as well

<https://www.loom.com/share/2090c6ede7aa41b68b39a56fc3daf55b?sid=a1bd7bb5-20ae-4395-9147-af2711087673>

- Admin can add new users
- Admin can set new users with admin access or normal access by checking the is_superuser checkbox on admin portal
- Users registered by admin can then log in to the website
- Users can upload Images and Videos
- Users can press Analyze button which will send data to hume api and display visualizations
- Users can update their personal information
